

THE CRYSTAL RECORDS

Times of Change

Our crystal grid at the gallery today is in honor of Shilo Krista, in carrying on her tradition, and wishing her well on her new journeys.

It is also a butterfly to represent metamorphosis and change. We at the gallery, are sending peace to all beings.

It is getting darker earlier and we are having crisper mornings with beautiful autumn sunrises. Leaves are falling from their branches until the trees are barren. This is a good time to shift our focus and turn inward and to reflect on what seeds of change we want to plant within our own souls for the coming year. Longer nights mean more chance for dreaming and a good time to pay attention to your dreams for symbols and messages. It can also be a time to connect with family and loved ones.

Now is the season to embrace new changes and open our hearts and minds to the healing energies that we can draw upon. A good time to reach out to your

neighbor or check in with an old friend. A time to set aside differences and see what connects us more than what separates us.

Please come into the gallery to see what crystals we are working with, and what we recommend to help guide you to a deeper connection with self and others.

Mineral of the Month: Grape Agate

Our crystal of the month is Grape Agate! It is named that because it looks like a bunch of grapes! This beautiful mineral is a new find (2016) and is a druzy botryoidal chalcedony found in the Mamujo area, near the western coast of Sulawesi, an island of Indonesia. Grape Agate is a trade name for purple aggregates of tiny quartz clusters with a spherical (botryoidal) habit.

However some feel the name “amethyst” better honors mineralogical and gemological definitions. Colors range from dark purple to a light lilac and sometimes they are included with Chlorite which causes a rare blue or green hue.

Grape Agate is a powerful intuitive stone that activates and links the crown and third eye chakras together. This stone helps one activate one’s psychic abilities and assists in the understanding of dreams. We recommend placing this stone at your bedside each night to allow the powerful energies of this stone to work while you sleep. One’s dreams will become more controllable and the images within them will become more clear. with the longer nights, it is good to keep a dream journal by your bed to instill the intention to help yourself with dream recall.

Grape Agate is said to promote mental clarity and vividness, linking the dream realm and real world together. Meditating with this stone repeatedly will help one easily transition between realms and live each day at a higher frequency, helping to connect to the higher self, in the most pure and loving form of who we truly are. When we are present for ourselves, we can be present for others which is so important during these times of transition.

New For November: Beautiful Sphere Stands

Sacred Geometry ascribes symbolic and sacred meanings to certain geometric shapes. It is associated with the belief that God is the geometer of the world. We have a beautiful new addition of sphere stands with 3D geometric patterns in the gallery. This can assist in raising the vibration of any kind of crystal sphere you are working with and help to enhance the energies of any intention willfully set when working with spheres and Sacred Geometry. Come by today to see our beautiful selection of Lemurian spheres and our new elegant wooden sphere stands.
